Feedback You ran a strong race today! You placed above your seed and ran tough. Today was not going to be extremely fast given the conditions, but you have to give yourself credit for all the hard work put into this season and build upon this for next year. Good seasonwe are provid of you!		Mile 1	2 Miles	Mile 2	Finish	Mile 3	Place	Place	Place	opiit

Today was hard, and you ran tough. You would have had to move up more throughout											
the middle and later stanes of											
the race, but you maintainted position instead. Regardless, you had a very strong season and a lot to be proud of. You											
and a lot to be proud of. You											
will be better and stronger this year for track. Great job,		0.14	10.55	6.44	10.07	6.00

had! We are so proud of everything you have											
accomplished this year, and we know that great things are											
coming for you! You ran hard											
that away from you. Be											
that away from you. Be proud, stand tall, and keep your head up! Keep being a great teammate and example!
