| Team Results: |  |  | Coach Notes: Overall, tonight was a great start to our racing season! Coach Ideran and I were very happy with the effort and the finish of so many of you! Things to celebrate: EVERYONE who raced Yorkville last year ran faster this year! Elyssa, Naylah, and Madison Sniegowski all ran faster today than they did throughout the entire season last year--which is an incredible sign for the season to come! Maddie $\mathbf{Z}$ is the first athlete to break 19 minutes at Yorkville since 2011! Becca ran her first official high school race since her sophomore year, and she is within reach of her PR from that season! Several others were within one minute of their fastest race last year! It's only the beginning of a great season! Many of our freshmen stepped up and truly followed the race plan by going with the race and not feeling overwhelmed by having the entire team together. Other notes--you guys did a great job getting your cool down going (especially given the weather), and you worked incredibly well as a team, given it was only meet one. Great job! |  |  |  |  |  |  |  |  |  |  |
