Coach Notes: Today you guys followed the race plan pretty well. Our packs looked good through about 2 miles. We'd like to continue working in packs even through mile 3, as that can be physically the toughest mile and the one you need your teammates for the most! Cross country is a sport that allows you to focus on your individual goals and focus on the team outcome as well. Do your job as an individual, focus on running for your team, and we have success! It was a great opportunity to celebrate our seniors, and we seriously thank you guys for all your hard work, persistence, and leadership to help take our program from where it was four years ago to where we are today. If distance running teaches you one thing, it's that hard work doesn't stop, and those who can continue to improve despite setbacks, hard times, and distractions are the ones who come out on top in the end. Our senior class represents resilience, excellence, and determination. Your examples will continue to live on here long after you graduate! Great work tonight in getting our 3rd dual win of the season!
