Notes from Coach Cook: So many great things to report after this meet--things we can continue to build upon for this weekend and beyond! I know we told you that we had 17 PRs, but looking again, I think we have 19 when you include those who ran 2 miles and can compare those times! Maddi set the tone and got everyone off to a great start in the first mile. Katie had the fastest 2nd mile of the day, which is why she closed the gap a little and looked amazingly strong! It was so great to get to see you race one another, and to have our girls take the first 8 spots is awesome! We attacked this race better than we have all season, and we continued to press the rest of the race. Stay disciplined and do all the little things right as we move into our final month of the season! You guys are doing amazing things--keep it up!
