Notes from Coach Cook: Wow guys, just wow! I have to say that we knew we could do this, but it takes a special group of girls to work together and execute to their potential to actually make it happen! We had 19 PRs again today...and today was not a day anyone would have looked outside, looked at the course, and said that it was likely to PR at all. As a team, we ran beautifully. We put ourselves in the race, moved up as the race progressed, took on and won the little battles, and finished incredibly strong. As individuals, we can probably point out at least a few things that every one of you could do better. The takeaway: we really are THAT good. The other takeaway: we could be EVEN BETTER! Holy moly...what a day! In the IV race, we were one little battle away from winning this race too. Every person could have won one more battle (except Ava) and flipped the outcome for the team. If we thought the race against Yorkvile was close, just look at this one! We have to learn from every race and every situation, and come back even stronger next week! Great race today...we are so proud of you!
